How' s the body hair?

The hair seems to be getting
thinner.

How' s the skin?

The skin feels bouncy.

To give my motivation a boost,
I used the Hair-removal Cream
and got smooth skin!

Great results!

2 weeks after using the hair-removal cream, hair
on my arms and legs hasn' t grown back much
as the pace of growth has slowed down.

Nagi is happy that her skin feels so smooth!

By removing the hair
with the hair-removal
cream first, the lotion
could permeate the
skin better.

And... she can' t stop showing off her skin to people!

Great results!

By using the hair-removal cream and inhibiting
lotion together, my unwanted hair isn' t as
noticeable.

It' s my second
time trying the
hair-removal cream!

Nagi Mama says...

Nagi has made it a habit to apply
the products herself after her bath.

And... my skin looks brighter too!
